## Experience

### **SENTINEL OF LIBERTY | PERSONAL PROJECT | NOV OF 2023 ~ ONGOING** [FRONTEND](#) / [BACKEND](#) / [DEMO](#)

- An online platform where people can suggest/share news from around the globe, and users can write articles based on them, offering their point of view to said suggestions.

**Current Stack:** Node.js, TypeScript, Express with TypeORM

### **BIRDY (SOCIAL NETWORK) | PERSONAL PROJECT | AUG ~ NOV OF 2023** [REPO](#) / [DEMO](#)

- An Instagram-like full-stack social network for bird enthusiasts to share and explore various bird species through their photographs.

**Tech Stack:** Vite.js, React, Redux, Tailwind CSS | Node.js, TypeScript, Express with TypeORM

### **MY SHOPPING LIST | PERSONAL PROJECT | AUG OF 2023** [REPO](#) / [DEMO](#)

- A PWA shopping list for saving items you need to buy using Firebase's database. It was enhanced from a tutorial to cater to the individual user's requirements instead of personal usage.

**Tech Stack:** HTML, CSS, JavaScript, Firebase Oauth2, Firebase Database

### **UTILITIES WEB APP | PERSONAL PROJECT | JUL ~ NOV OF 2023** [REPO](#) / [DEMO](#)

- A SPA built from scratch using vanilla JavaScript. It offers a range of conversion tools, calculators, and other utilities, such as password generators, a character counter, etc.

**Tech Stack:** HTML, CSS, JavaScript, Math.js library

### **DELIGHTFUL INDULGENCE | PERSONAL PROJECT | JUN ~ JUL OF 2023** [REPO](#) / [DEMO](#)

- Website dedicated to a fictitious gourmet dessert company that prides itself on crafting and distributing delectable desserts for couples.

**Tech Stack:** Vite.js, CSS modules, React using React Router

### **VITE.JS TEMPLATE | OPEN-SOURCE | JUN OF 2023 ~ ONGOING** [REPOSITORY](#)

- An Open-Source Vite.js template, initially built for personal use. I created this to start a new modern project with Vanilla Javascript. It is part of the official Vite.js [template list](#).

**Dependencies:** ESLint, Prettier, PostCSS + Nesting, Autoprefixer, CSS Nano, CSS Reset

### **SPECTRE | PERSONAL PROJECT | JUN OF 2023** [REPO](#) / [DEMO](#)

- Website developed for a fictional rock band called Spectre to train HTML, CSS, and JavaScript while seamlessly integrating Vite.js.

**Tech Stack:** Vite.js, HTML, CSS, JavaScript

### **GITPOP | PERSONAL PROJECT | MAY ~ JUN OF 2023** [REPO](#) / [DEMO](#)

- Web App designed for those who want to explore GitHub users' most popular repositories and profile stats. Use to integrate a third-party API.

**Tech Stack:** Vite.js, React, Tailwind CSS

**SURFBOT | PERSONAL PROJECT | FEB ~ MAY OF 2023** [REPO](#) / [DEMO](#)

- Website developed from scratch for a fictional surfing school. The website's design was created during a course from origamid.com. I wrote the code from scratch as a learning task.

**Tech Stack:** HTML, CSS, JavaScript

## Education

**GRADUATE COURSE | 2022 | ESTÁCIO DE SÁ UNIVERSITY**
